

SpiralSleeve™

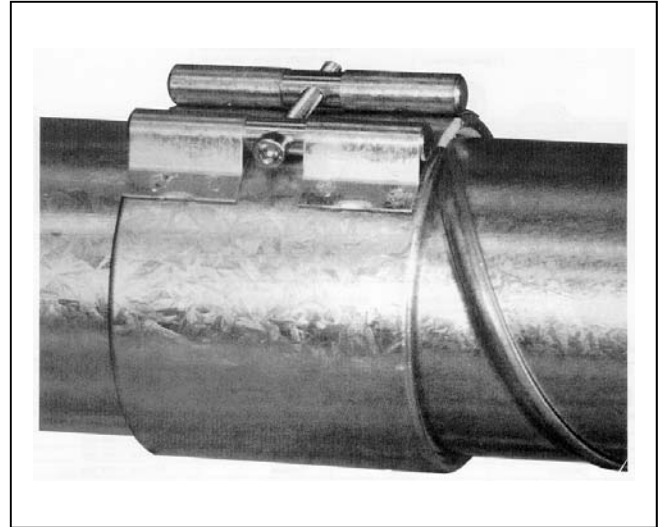

Round Duct Connection System

Specifications

- For round air conditioning, ventilation and dust collection systems.
- 24 ga. Galvanized metal sleeve
- Polyethylene seal to ensure air tight seal
- Polyethylene seal can accommodate spiral seam
- Tested to over 30" w.g. positive & negative
- Only one bolt per connection
- Other alloys available

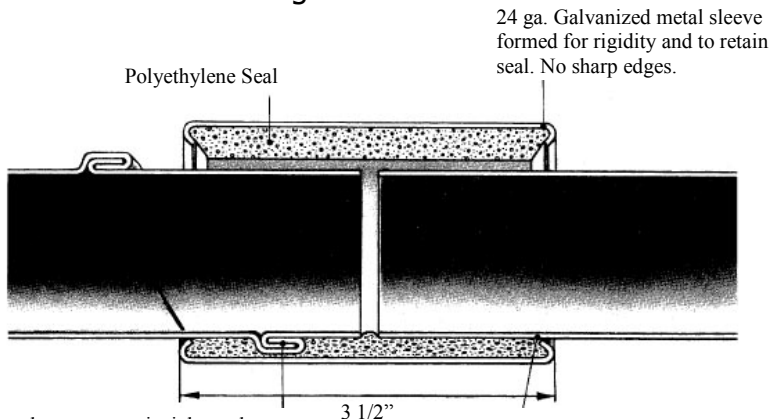

Packaging

- SpiralSleeve™ is sold in single sleeves.

Profile

- Available in 3" through 14"

When the connector is tightened the metal sleeve contacts the duct wall to provide rigidity.

Assembly

1. Loosen bolt.
2. Insert each duct about halfway into the SpiroSleeve™.
3. Tighten bolt.
